

SKI & SNOWBOARD, GRANDVAL

SKI LIFT LE GRAND VAL

“I appreciate being able to park a few metres from the start of the ski lift, but take care: you need the right equipment to get there (4 x 4 or good snow tyres or chains). Five pistes at various levels of difficulty guarantee fun and thrills, not just for average skiers but also for seasoned athletes who take delight in the steepest forests. I have even skied in wonderful fields of powder snow. The youngsters can enjoy the “string” ski lift, right next to the refreshment area.”

Claudia

GOOD TO KNOW

- Number of ski lifts: 2
- Kilometres of runs: 13 km
- Number of pistes: 5
- Minimum altitude: 950 m
- Maximum altitude: 1250 m
