

NATURE TRAILS, GLOVELIER

DRICINO

The garden is made up of two main areas; the first going through an orchard, and the second located between the edge of the forest and the Tabeillon stream.

As you cross it, you will come across several varieties of plants, including flowers and aromatic plants. These are used to make herbal teas and various types of seasoning.

A guided tour can be organised by appointment. It provides explanations of the various plant essences that can be found there, their scents and their properties. You can also visit the plant dryer installed in the attic.

The barefoot trail has a variety of rest areas. It is about 400 meters long and is made entirely of biodegradable and inert materials. There is also a small muddy area and a path to the river to enjoy.

After walking the barefoot trail, children can also have fun in the small play area set up for them.

OPENING HOURS

From 14 May 2025 to 26 Oct 2025
Wednesday - Sunday

10:00 - 20:00
