

HIKING, RECONVILIER

# TREASURE HUNT WITH QR CODE OF RECONVILIER

There are 2 versions of the Reconvilier treasure hunt. The first is the "village" trail, which has 8 locations and takes around 60 minutes to complete, guiding players through the streets of the town. This tour retraces some of Reconvilier's history.

A second "nature" tour, lasting around 120 minutes, will take participants into the Chaindon forest, where they will discover, at 6 stations, places that are sometimes unusual or a little forgotten. The 2 routes can be done in any order. The most motivated can even do them on the same day. At the end of each route, the coordinates of a "bonus" location will be revealed, taking players to the heights of the village. It takes 60 minutes (one way) to get there.

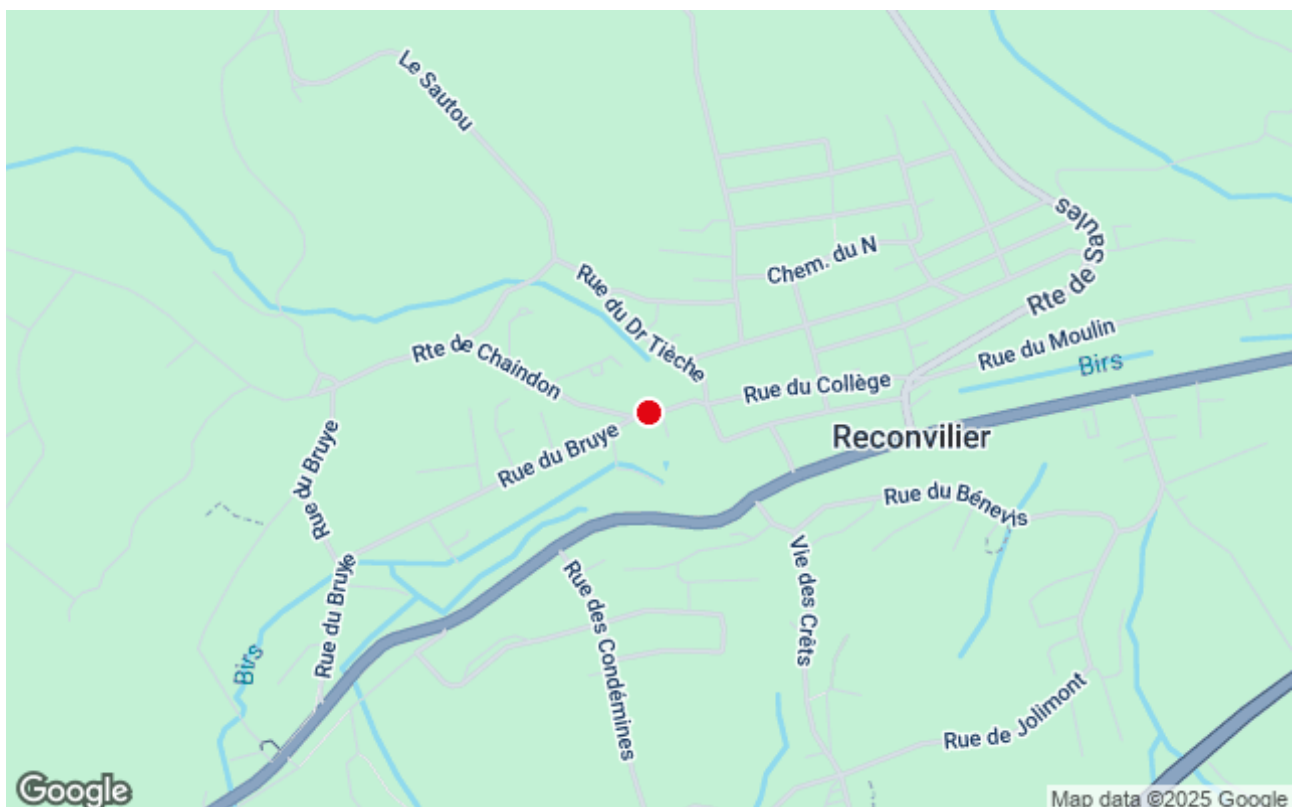

The treasure hunt is suitable for families and anyone who enjoys walking. The start of the 2 trails is at the village administration office at Route de Chaindon 9. To take part in the game, you need a smartphone with an internet connection and scan the first QR code in the window in front of the building. For the "nature" trail, good shoes are recommended, as you'll sometimes have to get off the beaten track.
