

NATURAL SITES, BÜREN AN DER AARE

OLD MILL

The old mill in Büren dates back to the mid-17th century and is one of the most important buildings of its type. Together with its outbuilding, it forms a picturesque pair. The mill pond on the edge of the forest provides water power for the waterwheel. The restored mill, which is in perfect working order, can be visited by prior arrangement. The large garden can be hired out for various festivities when the weather permits.

GOOD TO KNOW

The site is open all year round, with the buildings open from May to October by reservation.
