NATURAL SITES, CHESEAUX-NORÉAZ

PRO NATURA CENTER CHAMP-PITTET

Between flooded forest and interior ponds, humid meadows and reed beds grow in mosaic pattern on the 40 hectares of the Champ-Pittet estate. It is here, in the heart of the "Grande Cariçaie", which is a Ramsar classified site, that one can have easy access to the largest lakeside marsh in Switzerland.

Nature trails, gardens, guided tours, exhibitions will help you to know more about nature.
