WATER ACTIVITY, ESTAVAYER-LE-LAC

CÂBLE SKI

Water skiers and wakeboarders - as amateurs or professionals - will find their happiness on the 800-meters long Cable Ski.
People doing this activity for the first time will receive short instructions before the departure. The entire equipment is available for rent on site. Neoprene wetsuits are also available on request.

The Cable Ski belongs to "Alphasurf", a company specialized in lots of lake activities. It is also one of the best equipped water sports centers of Switzerland. There, you can have fun with paddle boats, canoes, windsurf boards and, of course, stand up paddles. Whether you are famished or a little hungry, the center proposes you a restaurant by the water. Finally, a sandy beach allows you to sunbathe or enjoy a play area.
