# COUPE DU CHASSERON, MOUNTAIN BIKING

The Chasseron Cup returns for its 36th edition on Sunday 6 September 2026. A well-established fixture in the national mountain bike racing calendar, this event is open to all and features a range of routes. The route winds through undulating forest trails, typical of the Jura landscape.

????????

The long route allows spectators to cheer on the riders on several occasions. The interesting and varied course offers breathtaking views, culminating at the Signal du Chasseron. As for the popular races, there's no need to worry about the elevation gain; the route is accessible to all. Children will also be in on the fun with a mountain bike race on a playful course.
