

SPECIAL ACCOMMODATION, MOUTIER

BNOMAD

The Bnomad summer setup offers two igloos (4-meter diameter geodesic domes) for cozy nights, each accommodating two people. A large pool is also available for refreshing swims. Couples, partners, families with children (from 4 years old and who can swim), nature lovers, sports enthusiasts, or hikers: come relax and rejuvenate in this exceptional setting. We pay close attention to providing warm service with high-quality organic and/or regional breakfast. Bnomad is committed to sustainable development with an ecological awareness linked to human well-being. We look forward to welcoming you in this green haven in the heart of Moutier!

The "fûe" dome (fire in Jura patois) has a double bed 160 cm wide and a wood stove and is reserved for adult guests (18 years and older). The "âve" dome (water in Jura patois) is arranged with two single beds 80 cm wide. Each dome has a top opening allowing for sleeping under the stars, in good weather. The domes are equipped with mosquito nets, a large hexagonal window (with curtains) to enjoy the view of the mountains and the pool, as well as electrical outlets and lamps.

The site features an in-ground pool (10 meters by 5 meters, 1.5 meters deep) available free of charge from 9:00 AM to 8:00 PM, shared with the host family. Next to the pool, a ping pong table is available for entertainment between swims.

The pool house is open to visitors and has a sink, fridge, and two gas cooking plates. A charcoal grill is also available. Breakfast is delivered to the pool house at 8:00 AM; if needed, it can be prepared and brought the night before.

The guest house is guarded by Marley (Labrador/Border Collie mix), a loving and warm dog. Dogs are not allowed on the site. Please ensure to close the wooden gate as Marley is not allowed to go down to the pool and domes. You may see Mélisse, the tabby cat, in the garden during the day.
