VACATION APARTMENTS, COURCELON

APPARTEMENT - LE SOLVAT

Welcome to the Ferme du Solvat. From our farm, you have an unimpeded view over the Delémont valley and the fields. If you're looking for a calm, relaxing place in the midst of nature, just a hop, skip and jump away from the forest, you've come to the right place.

We are producers of goat's milk (all of which we deliver to the Emmi supermarket chain to make the Petit Chevrier goat's cheese) as well as potatoes. We are also a teaching farm, which means that we regularly welcome classes to talk about agriculture.

The "Solvat farm holiday" experience means a pretty attic apartment, which has 3.5 rooms, and that has been recently renovated. It is also a place to unwind with a swimming pool and jacuzzi. And last but not least, it's a working farm with endearing animals so that children and adults alike can get (back) in touch with nature.
