JULIE AND LUCIEN DISCOVER SAINT-IMIER BETWEEN

The tour «Julie and Lucien Discover Saint-Imier Between Past and Present» covers some steps of the already available tour «Saint-Imier as seen by its inhabitants» since summer 2021, but treats them in a playful and child-friendly way. It can be followed independently or alongside the adult tour. To adapt the tour for the young audience, the content of the various stages is presented in audiovisual format. Accompanied by Julie and Lucien, two 12-year-old children born in 1930 and 1960, young visitors can discover Saint-Imier and observe how things have changed between the 1940s, 1970s, and today.
