FORMAT 2025

Reimagining the presence of images in our landscape

The association Impulsion is pleased to present the third edition of **FORMAT**, featuring a new route for an open-air exhibition that aims to redefine our perception of images in public space.

Walk, breathe, observe

Between paths, clearings, and mountaintops, the images blend into a breathtaking setting. Visitors are invited to explore the landscape, physically immerse themselves in the exhibition, and slow down. Twelve Swiss artists present large-format works created specifically to engage in dialogue with the site. There is no imposed theme — full creative freedom reigns, reflected in the diversity of forms, approaches, and narratives.

Listen

Beyond visual artworks, **FORMAT** is enriched by a vibrant and sonic program.

Three musical events and one talk are planned and will be announced in early July.
