

NATURAL SITES, LENGNAU BE

GÜNSCHE-WITI NATURE RESERVE

Stroll quietly among the ponds and wet meadows, hoping to catch a glimpse – and perhaps even hear – the protected inhabitants of this natural haven: frogs and small waders.

Located southwest of the Solothurn cantonal border, the Günsche-Witi Nature Reserve extends along the edge of the “Grenchner Witi” area, within the municipality of Lengnau. This protected site serves as a crucial stopover for migratory waders (small shorebirds), which also find a notable source of food here. The reserve also contains preserved and promoted habitats for amphibians.

GOOD TO KNOW

- In the protected area, it is prohibited, among other things, to:
- enter water bodies and riparian vegetation,
- leave marked paths,
- ride horses outside designated trails,
- set up tents, caravans, or other shelters,
- camp,
- disturb, capture, injure, or kill animals, as well as damage or destroy their habitats, shelters, nests, or clutches,
- release animals.
