# SUMMER ACTS: DROP-IN WORKSHOP FROM CYANOTYPE TO PROMPT AND GLITCH

As part of Summer Acts – the Pasquart’s summer programme (Centre d’art Bienne, Filmpodium, Espace Libre as well as Krone Couronne and Lokal Int) – the organisers cordially invite you to an afternoon of exchange and experimentation at the Photoforum.

The programme includes two guided tours at fixed times (14:00 and 15:00), during which you can discover the current exhibitions: “Tactics and Mythologies” by Andrea Orejarena & Caleb Stein and “Olvidamos cómo contemplar la madre tierra?” by Naara Bahler.

From 2 to 4 pm, experimentation will take centre stage with two open workshops:

Cyanotype workshop with Naara Bahler – discover this ancient technique using sunlight and natural materials to create poetic, deep blue images, and let’s explore together this ancient photographic technique using sunlight and natural materials to create images.

Prompt to glitch – experiment with image generation through AI and explore algorithmic glitches. In resonance with the exhibition “Tactics and Mythologies”, you are invited to explore the mysterious limits of our hallucinated imagination.

Free and no registration needed – just come by and join in!

## OPENING HOURS

The 5 Jul 2025  
Saturday

14:00

## CONTACT

Photoforum Pasquart  
Seevorstadt 71 / Faubourg du Lac 71
