

WATER ACTIVITY, BIEL/BIENNE

MOBICAT, SOLAR CATAMARAN

The MobiCat is a one-of-a-kind solar catamaran designed to slow the pace and invite relaxation. Powered entirely by the sun, this vessel cruises gently and silently across Lake Biel, offering a unique experience on the water. The electricity it generates not only powers the boat, but any surplus is fed into Biel's power grid. Winner of the Swiss Solar Prize in 2019, the MobiCat is a proud example of clean energy and mindful travel. On board, there's no rush — the journey itself becomes the destination.

GOOD TO KNOW

- Private rental possible. Please contact info@bielersee.ch directly.
