RECTO VERSO

Recto Verso is a contemporary, poetic and intergenerational circus performance. Two old clowns, exhausted after the first act, see their world shaken by a team of young, energetic artists. Together, they bring the magic of the circus back to life in a collectively reinvented second act. This story of transmission and collaboration is performed under a big top or outdoors on a mobile stage, touring across Switzerland. The show blends acrobatics, live music, clowning and dance, bringing together artists from different linguistic regions of Switzerland. It celebrates the encounter between generations and explores, in a lively, popular and poetic form, how knowledge is passed on.
