

NATURE AND SUSTAINABILITY, BIEL/BIENNE

«DIE ERMUTIGUNG DER WASSERAMSEL – EINE SUITE ZUR TRIFT IM BERNER OBERLAND»

Where glaciers once were, climate change has given rise to new worlds of rock, plants, animals and water. Köbi Gantenbein and the 'Alpenglüh'n' chapel bring their poetry from the mountains to Biel. They tell of hopes and false expectations, of the great Alpine poet Albrecht von Haller and of the futile beauty of the landscape – with music, texts, videos and images.
