FAIR TRADE EXCURSION

claro stands for genuine fair trade. The concept is proving popular: claro fair trade AG supplies well over 100 shops in Switzerland, primarily the claro Weltläden shops in German-speaking Switzerland and the Magasins du Monde shops in French-speaking Switzerland.

But what exactly does 'fair' mean? How does claro support people in the Global South, and what makes the company different from others? How are fair trade and sustainable development linked? How do producers, claro headquarters and shops work together? The Oikocredit German Switzerland support association invites you to find the answers on this guided tour!
