STORIES OF WOMEN COMPOSERS – LIFTING THE VEIL

The exhibition “Histoire(s) de compositrices – Levons le voile!” was conceived by the association *Présence Compositrices* to make women creators of music visible across the centuries. Comprising 28 posters, it traces the paths of composers who are often absent from traditional musical narratives. The exhibition offers a historical, artistic, and educational perspective, intended for all audiences. Each poster presents a composer, her historical context, her major works, and anecdotes illustrating her journey. The exhibition is suitable for all ages and can be visited freely or as part of guided tours.
