# HKB PLAYTIME : PRISMA

The HKB Master remixed performance series offers graduates of the Master of Music and Movement – Rhythmic programme an opportunity to return to the stage at the Bern University of the Arts. This year, during the HKB's PLAYTIME festival, Selina Hanser and Martha Roquet will present their project entitled Prisma.

Prisma explores the fascinating properties of light reflections in nature. Through fluid movements and dynamic sounds, the work artistically conveys the clarity, distortion and intensity of light colours on water and in the air. During the performance, contemporary dance interacts and blends with compositions by Pēteris Vasks, Johann Sebastian Bach, Philip Glass and György Ligeti.

**On stage:**

Kollektiv trio: Selina Hanser, saxophone and dance; Martha Roquet, cello and dance; Charlotte Lorenz, cello
