

FUN & ADVENTURE, CORTAILLOD

THE CULINARY LABORATORIES

A unique culinary immersion into creative and responsible cooking. In small groups, participants cook side by side with renowned chefs, learning how to transform local, seasonal ingredients from raw products into refined dishes. More than a cooking class, this experience focuses on hands-on practice, exchange and knowledge sharing, while promoting respect for ingredients, reducing food waste and encouraging sustainable consumption.

At the end of the workshop, the experience continues around an elegantly set table: participants enjoy the prepared menu together in a warm and convivial atmosphere.
