TO DO EVERYTHING, YOU NEED A FLOWER

MBAL is delighted to present, as part of its spring 2026 programme, the exhibition *To Do Everything, You Need a Flower*. Led by Swiss artist, graphic designer and lecturer Nicolas Polli, the project offers a fresh perspective on the intersections between photography, graphic design and hybrid artistic practices. The exhibition brings together a constellation of Swiss and international creatives from diverse disciplines, united by a shared desire to blur the traditional boundaries between artistic fields.
