ART, EXHIBITION, NEUCHÂTEL, LA CHAUX-DE-FONDS ET LE LOCLE

FROM STARS TO ATOMS

Immerse yourself in the fascinating world of time measurement through a unique exhibition spread across four emblematic sites in the Canton of Neuchâtel. From observing the stars to developing the most precise atomic clocks, discover how the Cantonal Observatory helped shape the region's scientific and watchmaking excellence. Rare instruments, immersive experiences, remarkable heritage and surprising discoveries take you on a captivating journey where astronomy, innovation and precision come together. A fascinating exhibition revealing how Neuchâtel helped keep the world on time.
