SLED RUNS IN THE VALLÉE DE JOUX

There are five maintained sledding hills in the Vallée de Joux, a privileged playground for gliding enthusiasts. The longest trail is a kilometre long starting at the summit of the Marchairuz pass. Other runs, a little shorter and a little easier, are spread out between Le Brassus (behind the church, la Combe du Moussillon) and the Mollendruz region.

GOOD TO KNOW

- Open depending on the snow conditions
- The sled runs are not accessible with ski lifts
