ON DISAPPEARING

Art Installation & Sound Performance

An immersive artistic experience where installation, sound and live performance come together.

Created by Swiss artist Eva Borner, ON DISAPPEARING explores memory, fragility and disappearance through an installation inspired by the Universal Declaration of Human Rights, engraved on olive oil soap. As time passes, the engraved texts gradually fade away, reflecting the vulnerability of our shared values and collective memory.

Featuring:

Eva Borner – installation & media art

Markus Fischer – double bass

René Reimann – electric guitar & sound art

Hans Peter Gutjahr – sound design & sound art

Art Curator:

Marcia Martin – MA MARTIN STUDIO
