CHECK YOUR BALLS DAY

Check Your Balls Day – Testicular Cancer Awareness Event

Testicular cancer is the most common cancer among men aged 15 to 44. Come and meet the volunteers of Having a Ball, who will raise awareness about the disease and the importance of early detection. In a large tent, you'll find informative leaflets, free hot drinks and snacks.

In a second, enclosed and heated tent, urologists will offer completely free, anonymous examinations, with no appointment necessary.

OPENING HOURS

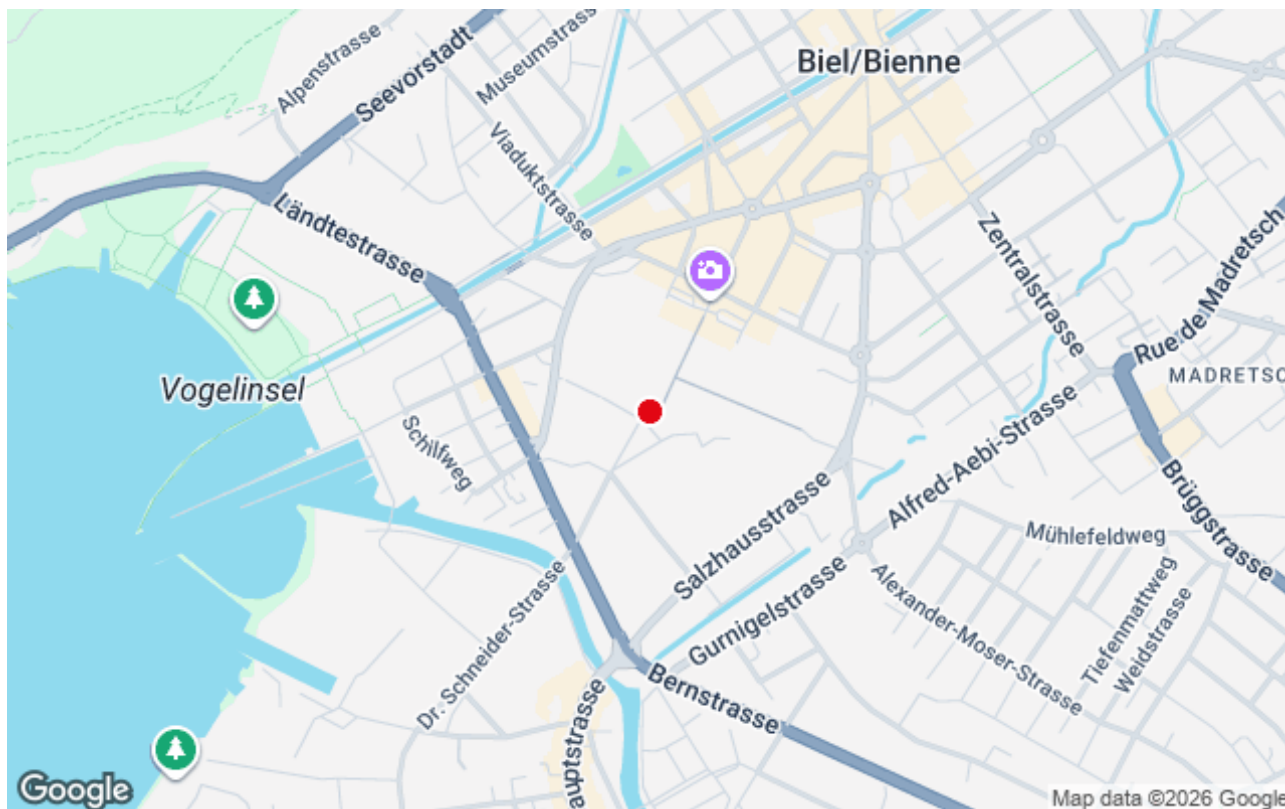

The 7 Nov 2026
Saturday

09:00 - 16:30
