TRAIL VALLÉE DE JOUX

The Trail Vallée de Joux takes its numerous participants from the shores of the Lac de Joux to the peaks of the Jura ridges on four routes of 13, 22, 36 & 51km with positive differences in altitude ranging from 450 to 2'300m.

Between forests and pastures, most of the routes pass through the highest point of the Swiss Jura: the Mont-Tendre. An exceptional panorama with autumn colours!

This event takes place in semi autonomy and 90% on footpaths. The race takes place in the middle of nature, in a preserved and authentic setting.
