

MUSEUM, MOUTIER

JURASSIC MUSEUM OF ARTS

The Jurassic Museum of Arts is housed in a former mansion built in 1903 by Charles Kleiber, an architect from Moutier. It houses a permanent collection of works by 20th century jurassic artists and regularly hosts temporary exhibitions of contemporary art. The museum currently holds more than 7,000 works from the 1950s to the present day, a unique heritage that is regularly showcased at a rate of 4 to 5 exhibitions per year. These exhibitions alternate between artists from the Jura region and creators from other regions of Switzerland or even from abroad.
