MUSEUM, PORRENTRUY

JURASSICA MUSEUM

Its rich and varied collections include numerous marine fossils. The exhibition “Faune et flora locales” (local fauna and flora) is dedicated to the appreciation of biodiversity past and present and features, among other things, amazing displays of stuffed animals. A first-rate collection of minerals completes the offering. The JURASSICA Museum’s policy also includes special and temporary exhibitions, covering one or two novel themes every year.
Guided tours of the museum can be booked on request, as can tours of the various Jurassica ‘satellite’ sites, including the botanical garden, the Banné excavation site and Dinotec. Tours can be accompanied by an aperitif.
