

GUIDED CITY TOUR, MOUTIER

SPOT BIRDS OF PREY IN THE BERNESE JURA

The varied countryside of the Jura hills, with forests, cliffs and broad meadows, is home to many species of birds of prey. Kites, buzzards, hawks, falcons, sparrow-hawks and even golden eagles live here. They soar silently in the skies without beating their wings. As guests observe birds of prey in their natural environment, they learn about these master-hunters' techniques.
