GUIDED CITY TOUR

GUIDED TOUR THROUGH TAVANNES

The traveler who goes through Tavannes has no idea of the rich industrial and urban heritage that this small town harbors. Its nickname, La Surprenante (The Surprising), is not a coincidence. The itinerary of the visit through the village enables to explore a very interesting architectural, industrial and urban heritage. If the heritage of Tavannes is so rich, it is because the industrial boom, linked practically to a single company, the Tavannes Watch Co, led to a strong increase in the population and resulted in a considerable development in construction.

PRICES
