

GUIDED CITY TOUR

GUIDED TOUR THROUGH TRAMELAN

Deeply rooted in the industrial structure of the region, the village of Tramelan counted in 1896 nearly 2500 employees working in factories or in small workshops at home. Tramelan invites the visitor to discover its built heritage, its workshop-houses, its temple with its magnificent stained glass windows by Bodjol and its church of Saint-Michel. A small town in the countryside, the village is full of original and various activities, buildings with daring architecture and stained glass windows that visitors are delighted to see.
