GUIDED CITY TOUR, BIEL/BIENNE

WORLDVIEWS - A CITY TOUR WITH WOMEN IN FOCUS

Whether a pile dwelling constructor, pharmacist, educational traveller, governess or owner of an African hairdressing salon - the second women's "Worldviews" tour in Biel focuses on women as it accompanies them on their journeys through diverse eras - from past to present. The "Worldviews" theme pays tribute to the stories of individual women; who through their experiences and souvenirs from afar, along with personal interpretations and views of the world, have helped shape the city of Biel you view today.
