NATURAL SITES

BISE DE CORGÉMONT

Located on the heights of the Vallon de Saint-Imier, between Cortébert and Corgémont, the Bise de Corgémont is a viewpoint that offers a breathtaking panorama of the Vallon. Forests and wooded pastures typical of the region await the walker who goes to the Bise de Corgémont. Shortly before the Jeanbrenin, the "métairie de la Bise de Corgémont" offers country and regional cuisine.
