MONT RAIMEUX

Culminating at an altitude of 1'301 meters, the Raimeux straddles the Bernese Jura and the canton of Jura. The former military tower of Signal, recognizable by its triangular shape, is located at its summit. From the top of the tower, the view on the Val Terbi and the whole Jura is breathtaking, and you can even guess the Vosges in the distance. The Raimeux ridge allows walkers to take advantage of numerous hiking trails and the steep north and south slopes are very popular with rock climbers.
