FUN & ADVENTURE, PORRENTRUY

MOTORIZED FLIGHTS

"Last month, we had our first flying experience in a small plane as we took off together with Jean and Marie to see the Jura from above. It was fantastic: the landscapes we knew so well looked completely different from up high... We flew over Delémont and the Franches-Montagnes, circled the Chasseral antenna, crossed over the Creux-du-Van and La Chaux-de-Fonds, before we landed again in Bressaucourt. All this in roughly an hour's flight. Now that I have got a taste of what flying is all about I will register at the flying school to become a pilot myself!"
