FUN & ADVENTURE, BONCOURT

# BISON PARK

**Set amidst the rolling Ajoie countryside with sweeping views of the Vosges mountains, Boncourt Buffalo Park immerses visitors in the world of these impressive bovine beasts. Trails criss-crossing 35 hectares of forest and pasture let you discover these iconic natives of America's Great Plains right here in Switzerland.**
**Don't miss the highlight of the park's natural life cycle: buffalo calving season, which falls between mid-May and mid-June every year.**
**Founded in 2004 by Michel Prêtre, the estate is today home to around 60 buffalo. For a unique and authentic experience, take a guided tour, taste buffalo meat in a tipi, or hire the park for your private party or business event.**
