MUSEUM, SAULCY

TEMPS DE RÊVES

"I had been told that I would see dolls... I thought it would be two or three on top of a cupboard... to my utter astonishment and joy, there were close to umpteen hundred displayed before me. Any child's dream, and still beautiful today. Time stands still in this house of dreams, allowing us to relive our childhood. This exhibition is true to its name and had us dreaming for quite a while."
