ZOO, CRÉMINES

SIKYPARK

Discover a unique experience at the Swiss Animal Rescue Park, a sanctuary dedicated to the care of exotic and native animals in distress. The park is home to a retirement shelter for big cats, a rescue center for parrots, and a rehabilitation unit for injured or orphaned wildlife. These facilities offer a second chance to animals rescued from seizures, abandonment, or those found in need.

Immerse yourself in the touching stories of these remarkable creatures and gain a deeper understanding of their past. Enjoy an emotional and educational visit, enriched with daily activities such as bird of prey flight demonstrations or big cat feeding sessions. A restaurant, playground, and picnic areas are also available, ensuring a pleasant experience with family or friends.
