FUN & ADVENTURE, LES REUSSILLES

HUSKY FATBIKE - VENT DU NORD

Taste the joy of sharing a moment of connivance and enthusiasm with sled dogs. Their training for winter races begins with solo instruction. The FatBike is an all-terrain bike with oversized tires that can handle any terrain - grass, mud, roots, snow - in complete safety. You set off with a Siberian Husky who pulls the FatBike and takes you through the magnificent landscapes of the Franches-Montagnes.
