

ART, EXHIBITION, TEMPLE DES EPLATURES

THE CRIB OF THE FIVE SENSES

The five senses are awakened at the Temple des Eplatures in La Chaux-de-Fonds. Built since the summer within the walls of the temple, it exhibits 800 terracotta figurines imported from Sicily and spread over 200 square metres of model built by craftsmen and volunteers.

This project presents different places of life in a village, through which the history of the Nativity is played out. Sound of water fountains, various scents, lights and buildings, snacks and decorative elements to touch mark out the different details of the model.
