GUIDED CITY TOUR, MONT-SOLEIL

UNDER THE SUN

This visit of the observatory, lasting one hour and a half, takes place during the day. It will allow you not only to understand how the main telescope and the special telescope dedicated to the observation of the Sun work, but also to observe the spots and protuberances of our star, live and safely, if the weather is favorable. In addition to the direct observation of the Sun in the dome, our planetarium will allow you to see 180° computer simulations of the solar activity, all commented by your guide.

PRICES

Prices

Guided group tour	CHF 350.-
Special price for classes in the Parc Chasseral region	CHF 150.-
