ARCHERY AND CROSSBOW SHOOTING

Gesture, strength and precision or just the desire to play make archery an interesting sport. This discipline is complex and the archer must have many skills. And whatever the level, whether practiced as a competitive sport or as a hobby, the gestures must be moderate, elegant and precise. Between initiation courses or target trails in the forest, there is something for everyone in the region. And for the more adventurous, there are also crossbow shooting courses in the Grand Chasseral, to become a true William Tell.

GOOD TO KNOW
