FUN & ADVENTURE, LES REUSSILLES

# VENT DU NORD

**Trek with the huskies (also in winter with snowshoes)**
**Sporty and dynamic walk pulled by a husky. A harness, a line and off you go! One bark later, you're off on a run through the wooded pastures in search of the ponds hidden in the mists of the peat bogs. Fantastic landscapes and preserved nature will reconnect you to your original state. Whether you are a group, a family or a couple, this experience will remain in your memories for a long time.**

**Visit of the Siberian Husky breeding**
**Friendly and sociable, the husky will amaze you with its kindness. There is nothing like a moment of complicity and cuddles to fall in love with these incredible dogs. You will be able to discover all the facets of their life in a pack, their training and their sporting life. You will be able to see them playing and running in their gigantic park.**

**Sledding (reservation only by phone!)**
**This emblematic and extraordinary activity can no longer be planned in the mid-term, as the snow cover is very changeable.**

## GOOD TO KNOW

- Activities offered in varying lengths according to the availability of participants and adapted to weather conditions.
- For groups and individuals
- Bus line : N23 Saignelégier - Soulcy
- 32 Tramelan - Goumois
