LA NEUVEVILLE - NODS - CHASSERAL

"A stunning 360° panorama awaits us at the summit. Situated at 1,606 metres above sea level, Chasseral overlooks the Lake of Bielle and the Swiss plateau. In the distance, an amazing view of the three-lakes region, the Alps, Mont Soleil and Mont Crosin and to the north, the landscape of the Franches-Montagnes. We even have been able to see the Vosges mountains and the Black Forest. We will remember this excursion for a long time!"
