SKI & SNOWBOARD, NODS

SKI LIFT NODS - CHASSERAL

This small family ski area is located at the southern foot of the Chasseral, at 960m altitude. A large 400m bow lift and two mini-ski lifts are available for skiers and snowboarders for a total of about 2 kilometers of runs. A sledge track is also available, with a special 260m bobsledding facility. The small snack bar at the lift serves hot and cold drinks and snacks during the opening hours of the facilities. More sophisticated food is also served on weekends. From the refreshment bar terrace, skiers can enjoy the sun and the view of the Alps from Mont Blanc to the Titlis.
