# ST-IMIER - CHASSERAL

**The bus to Chasseral waits for its passengers behind the Tourist Office in St-Imier. The route is very varied with a dense forest at the beginning which then gives way to vast pastures. When arriving at the top, the panoramic view on the Alps, the three lakes region, the Mont-Soleil and the Mont-Crosin is offered to the passengers in case of good weather. On some days, it is not a breathtaking view that lies before the eyes, but the impenetrable sea of fog that offers an equally surprising panorama.**
