Treehouse
Now here's a project that will delight young and old alike! Built for 4 to 5 people, our treehouse guarantees an unforgettable moment. At last your childhood dream can come true!
Inside, a little living area is there to welcome you after a good walk, while the gas stove can be used to cook dinner. Built over a surface area of 36 m2, including a 9m2 terrace, the treehouse floor is 5m above the ground.
The walls are built of local spruce from the Franches-Montagnes, while the supporting beams are made of larch wood from Valais. Not a single nail has been hammered into the tree so the building is completely in sync with the wild natural environment that surrounds it …

TeepeesThe camp site has three tipis that can accommodate up to 16 people. The tipis are perfect replicas of their Sioux counterparts. They are completely natural, and made of cotton, hemp and wood. Wooden floors provide protection from damp. Don't forget to bring your foam mattress and sleeping bags. Naturally the interior fire warms happy hearts and awakens the Sioux spirit that sleeps in each one of you ...

YurtThe yurt has 2 double beds and can accommodate 4 people. Everything is in place for you to prepare a delicious meal with a large under-cover table outside as well as a brazier. Inside, you'll find a little sitting room with a coffee table and relaxed atmosphere guaranteed!
A wood burning stove maintains a pleasant temperature that is conducive to the highly particular atmosphere of this nomad's accommodation.
