

CULTURAL HERITAGE, MORAT

CAVE COURONNE 1669

Like in the "Wirtschaft zur Cronen" 1669 - amusing moments in historical walls, carefree and entertaining.

Whether family, group or company, here you can enjoy wine tastings and aperitifs or let the evening fade away with chivalry. Our basement offers space for up to 30 people.

Wine Tasting Session

Let yourself be carried away into the world of regional oenologists and enjoy the regional delicacies to various grapes and winegrowers. You will learn exciting as well as instructive inputs about the world of wines.

Film, sommelier or self-study of the wines

You and your group can decide for yourself the information content of the tasting - whether for pleasure or with professional guidance - we will gladly provide you with tasting sheets according to WEST (Wines & Spirit Education Trust) and/or lead a professional tasting. If you would like to see and hear the winegrowers about your wines yourself, book the tasting film.
