NATURE TRAILS, CERNIER

EVOLOGIA

Families and visitors will be delighted to stroll around this site entirely dedicated to nature. A didactic farmyard, a rabbit hill and an educational apiary will tell you a lot about the local fauna. As for plants and flowers, they are put in the spotlight in the extraordinary gardens, the Gulliver's garden and the permaculture area. Without forgetting some original features such as an exhibition of antique tractors and the wool spinning mill.
