GASTRONOMY AND WINES, GRANDSON

BONVILLARS AOC

With great wines, scenery, history and a friendly atmosphere, the Bonvillars vineyards have all the ingredients for a wine tourism holiday. With spectacular scenery overlooking Lake Neuchâtel, the area is ideal for people who like to combine the joys of nature with fine living.

With an exceptional minerality, Bonvillars wines grow and develop on limestone rock and gravelly soil. The Pinots noirs and other grape varieties release tannins and elegant flavours and to enjoy them to the full, you have to meet the wine-makers who willingly share their passion with visitors to their vineyards.

At the gateway to Bonvillars, the mediaeval town Grandson provides the historical dimension to this wine region. Wandering through its narrow streets and visiting the castle are the perfect complement for a cultural and gourmet holiday.
